

Baird OnLine Disabling Apple PDF Viewer

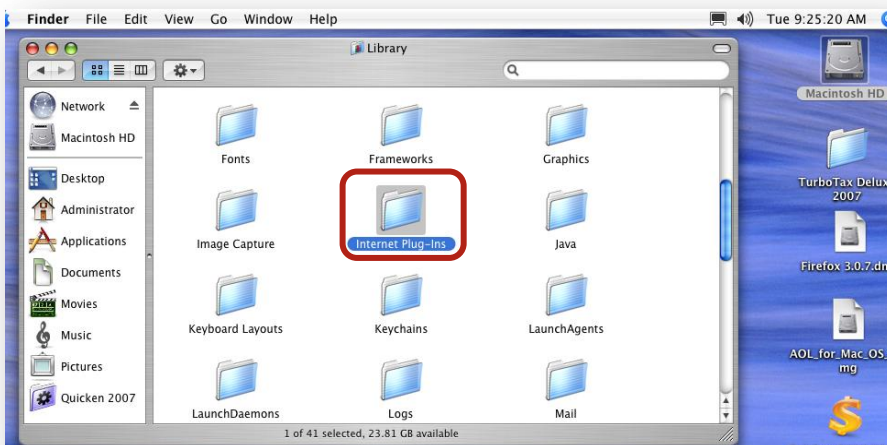

To view your eDocuments, you must have the latest version of Adobe Reader installed. To download Adobe Reader for free visit: <http://get.adobe.com/reader>. If you already have the most recent version of Reader and are using an Apple computer but still cannot view your eDocuments, follow the steps below do disable Apple's default program for viewing PDF files.

Disabling Apple PDF Viewer

1. Double-Click on your **Hard Drive**.
2. Double-Click the **Library** folder.

3. Double-Click the **Internet Plug-Ins** folder.

4. Click and then drag **AdobePDFViewer.plugin** to the **Disabled Plugins** folder. (If you do not have a folder with this name, create one.)
