School Analytics

Make Smarter, and Informed Decisions for Your District

Baird's School Business Solutions is committed to helping your district's administrative team become more knowledgeable and efficient through one-on-one consults, workshops, interactive video instruction and much more.

Do you know how your district stacks against other districts? Is your school staffing in line with those with a similar enrollment and economic status? How can you tell if you're spending in areas that really matter?

You could spend days trying to track down and collate all this information – or, with Baird's School Analytics, you can sort through and identify the data you need within minutes.

SCHOOL ANALYTICS TOOL

Baird's School Analytics tool lets you filter through financial, staffing and school information throughout Wisconsin, so you can evaluate your district against neighboring ones. Plus, our School Analytics tool highlights which factors are most closely tied to increased academic performance in your district, as measured by school report card scores, readiness, "closing the gap" and other metrics.

WHY YOU NEED THIS PROGRAM FOR YOUR SCHOOL
